SEVENSTAX Conformance Tester

SEVENSTAX Conformance Tester is a full-featured and ready-to-use Test System to verify your Electric Vehicle Charging Controller (EVCC) or your Supply Equipment Charging Controller (SECC) for interoperability relating to the standards. It already includes a HomePlug GreenPHY Frontend that allows the user to connect it directly with the Control Pilot of the Device Under Test. It integrates all test cases defined in IEC/ISO 15118-4, IEC/ISO 15118-5 and DIN 70122.
